

## Correction to reported carbon dioxide (CO<sub>2</sub>) and greenhouse gas (GHG) emissions data

**Published: 9 February 2024**

### Formal Notice

Due to a publishing error in the Ricardo plc 2019/2020 annual report and accounts, our greenhouse gas (GHG) emissions data was incorrect by the inclusion of (000's) in the table header. Therefore, the tonnage appeared as millions, rather than thousands. This also caused the years 2017/2018 and 2018/2019 in the same table to be represented incorrectly.

This has been addressed, and the tables in our 2022/2023 annual report and accounts represents the data correctly. Please see the attestation table on pages 99-100 of the Ricardo plc annual report 2022/2023 for the exact figures: <https://www.ricardo.com/media/yrnf42f3/ricardo-plc-annual-report-2022-23-annual-report.pdf>

Our emissions data was verified by LRQA:

- Scope 1, 2 and 3 – categories 13 have been verified to Reasonable Assurance
- Scope 3 – categories 1, 2, 4, 5, 6, 8, 9, 11, and 12 have been verified to Limited Assurance

We apologise for this error.
